

DIVINE INTERVENTION FOR LUMINOUS SKIN

# Graelle Organic

**BEAUTY  
IS  
FOR  
QUALITY  
LOVERS**

*Once you give your skin a complete break from perfume, alcohol and other synthetic chemicals, and switch to quality organic products, you will see immediate results and your skin will become more and more radiant.*

*Since alcohol is the principal preservative in USDA-certified organic products, an ingredient which dries the skin, we follow the European standard established by Ecocert, Europe's leading organic certifier, that supports organic skincare without the use of alcohol.*

*Most U.S. laboratories are not ready to comply with Ecocert's standards so we*

*set up our own. It was the only way we could get products made exactly the way we wanted. We are one of only ten Ecocertified laboratories in the country.*

*In addition to being certified organic by Ecocert, Gaelle Organic products are registered in the European Union in compliance with EU Cosmetics Regulation 1223/2009, the upgraded consumer protections that came into effect in 2013. We welcome the higher safety standards in Europe and hope U.S. regulators follow suit to improve the safety and integrity of the products we put on our skin.*

## CREATING RADIANT SKIN

ILLUMINATED BY NATURE

*Your beauty can truly grow with age and you can have fabulous skin all through your life, but it takes paying close attention to the quality of your skincare.*

*The best moisturizers for dry and mature skin work to compensate for lower oil production. Luscious emollient botanicals are just what your skin needs. They are rich in nutrients, promoting anti-aging and radiance.*

*The results will speak for themselves.*

**“BEAUTY IS  
THE ILLUMINATION AT  
THE HEART OF THE SOUL”**
